INTRODUCTION

To respond to information requests about materials in minority languages, the National Clearinghouse for Bilingual Education has compiled this guide to publishers and distributors serving the minority languages. A major resource in gathering this information was a listing of 1,200 publishers used in the research project "A Study of the State of Bilingual Materials Development and Transition of Materials to the Classroom," sponsored by NIE and conducted by Development Associates of Arlington, Virginia. In the summer of 1978, the Clearinghouse requested information about available materials and the languages and grade levels served by each firm on the listing. This publication presents information about publishers and distributors who responded to our request.

Sources are listed alphabetically, with each entry identified by accession number. The entries in this directory were alphabetized by computer which ignores English articles, but takes articles in other languages into account. The format is designed to provide easy identification of publisher, contact person, languages, grade levels, content areas, and types of materials. There are four indexes: language, grade level, content areas, and types of material. The terms which appear in the citations and indexes are based on the Thesaurus of ERIC Descriptors. For information on specific materials, contact should be made directly with the publisher for a copy of their catalog.

The grades which are covered by each level are as follows:

Early Childhood Education (through K)
Primary Education (grades 1-3)
Intermediate Grades (grades 4-8)
Junior High Schools (grades 6-10)
Senior High Schools (grades 9-12)
Higher Education
Adult Basic Education
High School Equivalency

When an educational level term was not appropriate, one of the following audience terms has been used: adult education; gifted, talented students; community colleges; senior citizens; nonformal education; adults; graduate study; correctional education; migrant education; alternative schools; and professional continuing education.

An information form is provided at the back of this guide for publishers or distributors which do not appear in this book. If you know of any which should be included in the revised version of this guide, please send a copy of the form directly to them or send their name and address to the Clearinghouse.

A major goal of the National Clearinghouse for Bilingual Education is to provide information products which can assist in the education of minority culture and language groups in the United States. It is our hope that this guide will help educators who are looking for instructional materials in minority languages.
